

## Governor's Advisory Council on Aging (GACA) 2013 Aging 2020 Update By Goal

### Goal 1: Make it easier for older Arizonans to access an integrated array of state and aging services.

For older Arizonans to fully participate in all aspects of community living, they and their families need access to information, resources, and services through a variety of venues. To this end, public and private organizations can play a leadership role in making it easier for older Arizonans to find and use the services and resources they need, no matter where in Arizona they may live.

#### Objective 1.1: Provide information and promote understanding of options, benefits, and available services through a range of multi-media formats.

### Goal 2: Increase awareness and understanding of aging issues and help prepare Arizona for an aging population.

The role of education cannot be underestimated in planning Arizona's future. Education permeates nearly every section of the Aging 2020 Plan. Through education, the fears, myths and misconceptions about aging can be changed so that older adults, businesses, providers and Arizona, as a whole, can be free from artificial barriers that prevent all from realizing the full potential of our changing population.

#### Objective 2.3: Educate businesses, providers, and other private entities about the value and needs of senior Arizonans.

Arizona has the most to gain in promoting healthy and active living for its residents, regardless of age. With greater longevity and increasing population growth, Arizona's economy can continue to prosper or be hindered due to ever-increasing health care costs due to poor health and chronic disease. Health promotion and disease prevention are just two strategies that can help us define Arizona's future.

#### Objective 3.2: Provide resources and services to promote healthy lifestyles, resulting in compressed morbidity and reduced mortality from preventable and chronic diseases.
